Ambienta announces new Head of Investor Relations: Laurent de Rosière

- Laurent de Rosière joins Ambienta as Partner, Head of Investor Relations and Strategic Partnerships, as well as a member of the Strategic Committee
- Laurent will be instrumental in expanding Ambienta's platform by developing its existing asset classes and extending its brand and expertise to new ones

Ambienta SGR SpA ("Ambienta"), one of Europe's leading and largest asset managers focused, solely, on environmental sustainability, is pleased to announce the appointment of **Laurent de Rosière as Head of Investor Relations and Strategic Partnerships**. As Partner and member of the firm's Strategic Committee, Laurent will be instrumental in further expanding Ambienta's platform by developing its existing asset classes including Private Equity and Ambienta X, our public markets strategy, and extending the firm's brand and expertise to new ones.

Laurent has close to 30 years' experience in Asset Management, Investment Banking and Wealth Management in Alternative Assets. He joins from BC Partners, where he was a Partner and Global Head of Strategic Relationships, having joined the firm in 2009.

Sustainability is the biggest revolution that the global economy has ever experienced, a mega trend that is constantly reshaping all industries. Since its inception, Ambienta has focussed on opportunities that harness the intersection of industrial development and environmental sustainability. Its unique approach to environmental sustainability starts with its dedicated Sustainability & Strategy team, a team of engineers in charge of fully understanding the environmental trends that are shaping our world, and to applying these learnings across asset class, depending on the nature of the opportunity. Ambienta has been supported by its partnerships with like-minded investors, leading to a firm that today manages more than €3.0bn in assets across Private Equity and Public Markets.

It is in the context of this attractive platform approach, and shortly after the successful fundraise of Ambienta IV, the largest European private equity fund focused on environmental champions, that Laurent joins Ambienta. Laurent's depth of experience and know-how will ensure that Ambienta continues to be the partner of choice and to support investors along their sustainability journey on a global scale across asset classes.

Laurent de Rosière, Head of Investor Relations and Strategic Partnerships at Ambienta, commented: "I am thrilled to be joining Ambienta and embark on this sustainability journey. Having been a friend of the firm for many years, I am impressed with the strength and quality of the platform that I am joining and all that Ambienta has achieved thus far: its unique mandate of true environmental sustainability is a strong differentiating factor that investors have clearly understood and value, and one that transcends industries and products. I am excited to

Milan/London/Paris/Munich, 14 November 2022

contribute my experience alongside a great team, to foster the firm's further growth and continue to serve Ambienta's investors' sustainability needs as we continue to build our sustainability strategy across asset classes."

Nino Tronchetti Provera, Founder and Managing Partner of Ambienta, added: "As Ambienta continues to grow, we continue to invest in talent across the board. I am delighted to welcome Laurent as a new addition to the Ambienta family. With his breadth and depth of experience as well as deep network I am confident that Laurent has the vision to help guide us through our future growth – putting in place the right competencies and processes to achieve our ambitions. Expanding our platform to new asset classes, growing the existing ones and serving our global and increasingly sophisticated investor base are only some of the projects that Laurent and his dedicated Investor Relations and Strategic Partnerships team will be spearheading."

---END---

Ambienta

Ambienta is a European environmental sustainability investor across private and public markets. Operating out of Milan, London, Paris and Munich, Ambienta manages over €3.0 billion in assets with a focus on investing in private and public companies driven by environmental megatrends and whose products or services improve resource efficiency or pollution control. In private equity, Ambienta has completed 58 investments to date. In public equity markets, Ambienta has pioneered one of the world's largest absolute return fund entirely focused on environmental sustainability and manages a full suite of sustainable products ranging from low-risk multi-asset fund to equity long only.
