Ambienta expands into Nordics through opening of dedicated Stockholm office

- Ambienta announces the opening of a Stockholm office, marking its fifth location in Europe.
- The new office will serve as a local hub for Ambienta's activities in the Nordics.
- Team will be formed by Milena Torciano who joins as Private Equity Partner and Casper Langhoff joining as Director.
- No Dig Alliance marked the first Private Equity investment in the Nordics successfully completed this year.

Milan/London/Paris/Munich/Stockholm, 11 December 2025 Ambienta SGR S.p.A. ("Ambienta"), one of Europe's leading asset managers pioneering investment in environmental sustainability across private and public markets, is pleased to announce the opening of its Stockholm office: marking Ambienta's first presence in the Nordics and fifth office globally, underscoring the company's significant growth momentum across Europe and ongoing commitment to sustainable investment.

The Nordics are recognised as one of the many European global leaders in sustainability, with a strong track record of established environmental solutions across sectors. Ambienta's expansion into the region comes at a time when demand for sustainable infrastructure and climate-resilient businesses is accelerating, driven by urbanisation, pressure on resources, and the urgent need to address climate challenges. Ambienta made its first investment in the Nordics earlier this year when it acquired No Dig Alliance, a leading group of companies in the Nordics region specialising in sustainable water infrastructure solutions.

The Stockholm office will enable Ambienta to deepen relationships with local stakeholders and serve as a platform for engagement across the region. The new office will focus on identifying environmental champions in Sweden, Norway, Finland, and Denmark. Milena brings extensive experience in private equity and sustainable investment, with a strong track record of driving growth and transformation across European markets. She has been a senior advisor to Ambienta for the past year, playing a pivotal role in Ambienta's first Nordics investment, and is committed to advancing the firm's mission of investing in businesses that deliver measurable environmental impact. Casper joins following a long tenure as a banker, having held senior M&A advisory and private-equity investing roles with leading firms across the Nordic region.

Mauro Roversi, Founding Partner & Chief Investment Officer, Private Equity, commented: "The opening of a new office in Stockholm marks an important milestone for our organization as we deepen our presence in a region that has long been a strategic priority. Expanding into the Nordics strengthens our ability to grow in line with our broader ambitions while further enhancing our pan-European platform. We combine an international network with strong local insight supported by Ambienta's firmwide execution capabilities and deep expertise in

sustainable, long-term value creation. This expansion reflects our commitment to mobilising global capabilities while staying closely connected to local markets. I would like to thank our team in the Nordics for their dedication and leadership in bringing this next step of our growth journey to life."

Milena Torciano, Partner, Private Equity, added: "I am delighted to contribute to Ambienta's expansion into the Nordics with the opening of our Stockholm office. This region is at the forefront of sustainable solutions of the real economy, and we look forward to partnering with local businesses and stakeholders to deliver strong results alongside positive, long-term environmental impact."

About Ambienta

Ambienta is a European investment manager, founded in 2007, pioneering sustainable investing in environmental champions across private equity, public markets, and private credit. With offices in Milan, London, Paris, Munich and Stockholm Ambienta manages over €4bn in assets and is backed by a global and growing investor base. The firm invests in companies driven by environmental megatrends and whose products or services improve Resource Efficiency or Pollution Control. Its science-driven approach identifies environmental champions of the real economy – businesses that deliver strong financial returns while generating measurable positive environmental impact.

An industry pioneer, Ambienta was one of the first UN PRI signatories in 2012 and attained B-Corp status in 2019. In 2020, Ambienta became IIGCC member and in 2023 committed to the Science-Based Targets initiative (SBTi). www.ambientasgr.com
